

Respect Collaboration Trust- Consultation

Consultation: Kingsmead School: Additional Satellite Site at City of Derby Academy

Since April 2021 a number of changes have been made to what is now known as Respect Collaboration Trust, this is in direct response to the increased demand locally and pressure on Derby City Special Schools, supporting Derby City to reduce out of authority placements. This consultation supports bringing this wider project together as a whole, to offer a greater number of SEMH placements for Derby City.

Already the collaboration has;

1. Extended the age ranges (5-16) and pupil numbers (150) at Bridge Street School
2. Extended the age ranges (7-19) and pupil numbers (180) at Kingsmead School
3. Extended the age ranges (5-19) and pupil numbers (100) at Castle School
4. Created Respect Collaboration Trust
5. Implemented an Inclusion Advisory Service
6. Redeveloped and taken ownership of a number of buildings to provide school based activities and also outreach work.

Proposal

Formalise the educational arrangements for a Key Stage 5 Satellite Site for Kingsmead pupils at Futures on Farmhouse Road in Derby, and a small number of City of Derby Academy (CODA) children who require additional support and intervention.

Futures is a two-storey building belonging to Tapestry Learning Partnership and sits within a secure independent footprint next to CODA school - although it cannot be accessed from the CODA site.

We propose Kingsmead School will admit up to 40 children through the schools defined admissions process and the associated land will be appropriately leased to secure long term and successful provision for Derby City pupils. Again, this forms part of our Trust Strategy.

This agreement that has been developed over a significant period of time and part of the ongoing partnership between Tapestry Learning Partnership and Respect Collaboration Trust. **Stronger Together**, is designed to utilise capacity in existing school buildings, maximising curriculum knowledge and share expertise around SEND, SEMH and other Inclusion elements.

This project formally commenced on 1st September 2026, and is a retrospective collection of views which help shape the current direction of the partnership and further collaborative working.

We will seek the views of stakeholders across the sector.

Please respond using the attached form by **19th October 2026**, this provides a three-week opportunity for people to respond to our proposals. If you would like to discuss any specific aspects of the proposal or need further information, please contact;

Executive Assistant and Office Manager
